Fractional calculus is a branch of mathematical analysis that studies the several different possibilities of defining real number powers or complex number powers of the differentiation operator D = (),and of the integration operator J = ∫ (),and developing a calculus for such operators generalizing the classical one.. In this context, the term powers refers to iterative application of a ...

In elementary algebra, the quadratic formula is the solution of the quadratic equation.There are other ways to solve the quadratic equation instead of using the quadratic formula, such as factoring, completing the square, or graphing.Using the quadratic formula is often the most convenient way.

D.S. Chandrasekharaiah, Lokenath Debnath, in Continuum Mechanics, 1994 5.9 PRINCIPAL STRAINS. It has been seen that, under a deformation, a material arc generally changes in length and orientation.From a particle P there emerge infinitely many material arcs, and each of these arcs generally changes in length and orientation. We now consider the arcs that change only in length, under small ...

Text mining is an emerging topic that advances the review of academic literature. This paper presents a preliminary study on how to review solar irradiance and photovoltaic (PV) power forecasting (both topics combined as "solar forecasting" for short) using text mining, which serves as the first part of a forthcoming series of text mining applications in solar forecasting.

In matematica, la funzione delta di Dirac, anche detta impulso di Dirac, distribuzione di Dirac o funzione δ, è una distribuzione la cui introduzione formale ha spianato la strada per lo studio della teoria delle distribuzioni.. Introdotta da Paul Dirac, anche se già presente nei lavori di Oliver Heaviside, è una funzione generalizzata che dipende da un parametro reale in modo tale che sia ...

Hardware aliasing occurs when the same logical address can access different physical memory locations. This is a problem for software on some embedded systems and more generally when hardware becomes faulty in irretrievable locations, such as on a Mars Lander.
