No, a small number go for layout but the substance of what you write and staying on task is the most important thing. What I mean by staying on task is if you're asked to write a letter and you write a diary entry, then sure, you'll lose loads of marks, becuase it's not just your layout that's wrong but your entire approach.

@Bruno The inability to disable smoke detectors for a period of 30-60 minutes while dealing with a small kitchen fire shows an insane lack of insight into usage patterns by some legal official at some point that I feel borders on criminal.

How to ignore SSL certificate errors in Apache HttpClient 4.0

I've been googling around for half a day looking for a way to read a .pfx file and import the certificates into the certstore.. So far, I am able to read the .pfx file with X509Certifcate and able to import one certificate within the .pfx file. So far so good, but there are three certificates in the .pfx file and when loading the .pfx with X509Certificate, I am not able to see the other two ...
