I. General Hunter Macros. The following list contains a whole slew of useful macros for Hunters. I don't use all of them myself, but I can confirm that they are current and functional as of Patch 6.0.2.. The list contains macros that are applicable to all builds and play styles, as well as talent-specific, PvP oriented, engineering-only, and other miscellaneous macros.

Best Damn WoW Hunter Macro Collection on the Web

I should preface my comments to note that I don't have much experience with macro photography beyond some stupid macro tricks seven years ago with a reversed lens, and general use over the years with a Voigtländer 125mm f/2.5, which is a full 1:1 macro. The new Venus /Laowa lens is a 2:1 macro.. So we're clear on the terminology, the phrases " full macro " or " 1:1 macro " mean that ...

hello Paul, What would be the best method if I wanted to send a message to be copied to a template Letter if 3 conditions come up? So, for example, I have 3 funds from a tab named FRED which has over 21,000 of data in it and when the commands come in to run in the template to create the letter, I need to search through this data in FRED to see if these 3 funds come up, and if they do come up ...

A nice diffuser makes all the difference in the world. I use different diffusers for studio and field; for studio macro I tend to mount them straight onto a lens but for field macro I have them sitting on the flash.

Extreme macro diffusers - materials and DIY making

Preprocessor Overview. The C preprocessor, often known as cpp, is a macro processor that is used automatically by the C compiler to transform your program before compilation. It is called a macro processor because it allows you to define macros, which are brief abbreviations for longer constructs. The C preprocessor is intended to be used only with C, C++, and Objective-C source code.

Chapter 1 Money and Prices In Ec 207, there was scant reference to the fact that transactions needed a medium of exchange to be carried out. The only references to money came

Lecture Notes in Macroeconomics - University of Houston

Programmers can use assertions to help specify programs and to reason about program correctness. For example, a precondition—an assertion placed at the beginning of a section of code—determines the set of states under which the programmer expects the code to execute. A postcondition—placed at the end—describes the expected state at the end of execution.

Assertion (software development) - Wikipedia

Head Unit. The term head unit in a car stereo system used to refer to a 'tape deck' or a CD player but nowadays, it's as likely to be an MP3 player, a cell phone capable of MP3 playback or even a tablet computer. The conventional CD player type head unit often has a built in amplifier that can drive speakers directly. The average MP3 player, cell phone or tablet computer (if used without a ...
